

CalPERS Requirements, Audits, and Related Bargaining Considerations

ACSA Negotiators' Symposium

San Diego

Increasing pension contributions required by school districts and their employees continue to make negotiations more difficult. In addition, CalPERS continues its zealous enforcement of its regulations regarding pensionable compensation and related issues, and the Legislature has added new PERS-related laws, as well. This session will assist you in preparing to address PERS cost considerations at the bargaining table, and preparing to face one of the increasingly-common CalPERS audits. You will gain the tools you need to review and revise your classified contracts and policies to make sure they comply with CalPERS laws and regulations, as well as some practical tips for bargaining regarding these issues.
