

CJPIA | Risk Management Educational Forum

Resilient Together will be leveraging the strengths of digital technology to help ensure this is not just another virtual conference. The sessions and topics feature the sharpest minds, with insight from those who share in local and civic duty.

All participants will be able to engage with presenters, including Traci A. Park, Katy A. Suttorp, and Kelly A. Trainer, with some sessions offering roundtable breakouts to converse with colleagues in smaller groups. Aside from our virtual sessions, additional educational content will be available for download after the event.
